

I'm not robot!

with automation as well as preferred. With the pandemic have come opportunities to boost stakeholder trust On a more fundamental level, many carriers can consider taking steps to bolster trust among stakeholders to boost retention and profitability. This might be achieved in part through greater transparency in how insurers collect and utilize personal data. They can also become more proactive in seeking comprehensive solutions to big picture societal problems—such as mitigating the financial impact of future pandemics and closing coverage gaps for natural catastrophes. Interested in a deep dive? Download the full 2022 insurance industry outlook to learn more.
